Pinnacle Listed Practical Limited
Appendix 4E
Preliminary final report

1. Company details

Name of entity:	Pinnacle Listed Practical Limited	
ABN:	12 345 678 901	
Reporting period:	For the year ended 31 December 2025	ASX4.3A(1)
Previous period:	For the year ended 31 December 2024	ASX4.3A(1)

2. Results for announcement to the market ASX4.3A(2)

\$'000			
Revenues from ordinary activities	up	7.3% to	467,835 ASX4.3A(2.1)
Profit from ordinary activities after tax attributable to the owners of Pinnacle Listed Practical Limited	up	78.9% to	27,763 ASX4.3A(2.2)
Profit for the year attributable to the owners of Pinnacle Listed Practical Limited	up	78.9% to	27,763 ASX4.3A(2.3)

Dividends ASX4.3A(2.4)

	Amount per security Cents	Franked amount per security Cents
Final dividend for the year ended 31 December 2024 paid on [date]	15.0	15.0
Interim dividend for the year ended 31 December 2025 paid on [date]	5.0	5.0

On [date] the directors declared a dividend of 17 cents per ordinary share with a record date of [date] to be paid on [date].

Comments ASX4.10.17
The profit for the consolidated entity after providing for income tax and non-controlling interest amounted to \$27,763,000 (31 December 2024: \$15,520,000). ASX4.3A(2.6), ASX4.3A(14)

All three of the consolidated entity's divisions improved their profit results. The computer manufacturing division further increased its profit following the re-engineering of its processes, which has resulted in increased production and a reduction in product defects. The computer retailing division had a 7.2% increase in sales largely from higher value products. The computer distribution division benefited greatly from the final integration of the acquired CompCarrier business, which saw its existing administrative function better utilised.

Whilst less than 25% of sales are provided on credit, the consolidated entity has increased its monitoring of debt recovery as there is an increased probability of customers delaying payment or being unable to pay in the current environment. As a result, we have increased our allowance of expected credit losses as at 31 December 2025.

The financial position of the consolidated entity is strong with excellent liquidity and a large asset base, which is being fully utilised. With the predicted continued profitability of the consolidated entity, bank borrowings are expected to reduce significantly during the year ending 31 December 2026 from current cash on deposit and future earnings, without necessarily reducing dividend payments.

The computer industry is a fast moving industry and the rate of technological change is astronomical. The main risk for the consolidated entity, and therefore the focus of management, is inventory management. During the financial year the inventory module of the management information system was updated to provide 'real time' information on stock turn and the identification of slow moving inventory. This allows management to make special offers to customers to clear the inventory before it becomes completely obsolete.

3. Net tangible assets ASX4.3A(9)

	Reporting period Cents	Previous period Cents
Net tangible assets per ordinary security	150.08	146.94

4. Control gained over entities ASX4.3A(10)

Name of entities (or group of entities)	Pinnacle CompCarrier Pty Limited	ASX4.3A(10.1)
Date control gained	[date]	ASX4.3A(10.2)

\$'000

Contribution of such entities to the reporting entity's profit/(loss) from ordinary activities before income tax during the period (where material) ASX4.3A(10.3) 670

Profit/(loss) from ordinary activities before income tax of the controlled entity (or group of entities) for the whole of the previous period (where material) ASX4.3A(10.3) -

5. Loss of control over entities

ASX4.3A(10)

Not applicable.

6. Details of associates and joint venture entities

ASX4.3A(11)

Name of associate / joint venture	Reporting entity's percentage holding		Contribution to profit/(loss) (where material)	
	Reporting period %	Previous period %	Reporting period \$'000	Previous period \$'000
Compdesign Partnership	35.00%	35.00%	4,587	3,802
<i>Group's aggregate share of associates and joint venture entities' profit/(loss) (where material)</i>				
Profit/(loss) from ordinary activities before income tax			4,587	3,802
Income tax on operating activities			1,376	1,141

7. Audit qualification or review

ASX4.3A(15-17)

Details of audit/review dispute or qualification (if any):

The financial statements have been audited and an unmodified opinion has been issued.

8. Attachments

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Pinnacle Listed Practical Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the year ended 31 December 2025.

CA299(2),CA299A(2)

Directors

CA300(1)(c)

The following persons were directors of Pinnacle Listed Practical Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

- Anthony Example
- Brad Example
- Christina Example
- Daniel Example
- Elizabeth Example (resigned on 20 February 2026)

Principal activities

CA299(1)(c)

During the financial year the principal continuing activities of the consolidated entity consisted of:

- Computer manufacturing
- Computer retailing
- Computer distribution

The computer distribution division was significantly enhanced during the year with the acquisition of Pinnacle CompCarrier Pty Limited.

Dividends

CA300(1)(a),(b)

Dividends paid during the financial year were as follows:

	Consolidated	
	2025	2024
	\$'000	\$'000
Final dividend for the year ended 31 December 2024 (2024: 31 December 2023) of 15 cents (2024: 8 cents) per ordinary share	22,037	11,744
Interim dividend for the year ended 31 December 2025 (2024: 31 December 2024) of 5 cents (2024: 4 cents) per ordinary share	7,346	5,872
	<u>29,383</u>	<u>17,616</u>

On [date] the directors declared a final dividend for the year ended 31 December 2025 of 17 cents per ordinary share to be paid on [date], a total estimated distribution of \$24,975,000 based on the number of ordinary shares on issue as at [date].

CA300(1)(b)

Review of operations

CA299(1)(a),CA299A(1)

The profit for the consolidated entity after providing for income tax and non-controlling interest amounted to \$27,763,000 (31 December 2024: \$15,520,000).

All three of the consolidated entity's divisions improved their profit results. The computer manufacturing division further increased its profit following the re-engineering of its processes, which has resulted in increased production and a reduction in product defects. The computer retailing division had a 7.2% increase in sales largely from higher value products. The computer distribution division benefited greatly from the final integration of the acquired CompCarrier business, which saw its existing administrative function better utilised.

Whilst less than 25% of sales are provided on credit, the consolidated entity has increased its monitoring of debt recovery as there is an increased probability of customers delaying payment or being unable to pay in the current environment. As a result, we have increased our allowance of expected credit losses as at 31 December 2025.

The financial position of the consolidated entity is strong with excellent liquidity and a large asset base, which is being fully utilised. With the predicted continued profitability of the consolidated entity, bank borrowings are expected to reduce significantly during the year ending 31 December 2026 from current cash on deposit and future earnings, without necessarily reducing dividend payments.

The computer industry is a fast moving industry and the rate of technological change is astronomical. The main risk for the consolidated entity, and therefore the focus of management, is inventory management. During the financial year the inventory module of the management information system was updated to provide 'real time' information on stock turn and the identification of slow moving inventory. This allows management to make special offers to customers to clear the inventory before it becomes completely obsolete.

Significant changes in the state of affairs

CA299(1)(b)

On [date] Pinnacle Logistics Pty Limited, a subsidiary of Pinnacle Listed Practical Limited, acquired 100% of the ordinary shares of Pinnacle CompCarrier Pty Limited (formerly known as CompCarrier Pty Limited) for the total consideration transferred of \$8,230,000. This is a freight business and operates in the computer distribution division of the consolidated entity.

There were no other significant changes in the state of affairs of the consolidated entity during the financial year.

Matters subsequent to the end of the financial year

CA299(1)(d)

Apart from the dividend declared as discussed above, no other matter or circumstance has arisen since 31 December 2025 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Likely developments and expected results of operations

CA299(1)(e)

There has been a squeeze on the margins of desktop and laptop computers and a strong demand for tablets and motion detection devices. Management plans to increase production of its high margin tablets and ramp up the research and development of its motion detection devices, particularly the body motion device. Also on the horizon are the virtual keyboard and the eye-retina mouse, both of which can be deployed in a number of industries and for individuals with motion difficulties in their hands.

With the manufacturing facilities forecast to be at maximum capacity within the next 6 months, management are actively looking for new premises to house additional machines to increase capacity.

As the economic environment continues to improve and the new higher margin products being sold, management are confident that the prospects of the consolidated entity will continue to improve in the foreseeable future.

Environmental regulation

CA299(1)(f)

The consolidated entity is not subject to any significant environmental regulation under Australian Commonwealth or State law.

Information on directors

CA300(10),(11)

Name: Anthony Example
Title: Non-Executive Chairman
Qualifications: BSc, MBA
Experience and expertise: Anthony has over 40 years of experience in the computer industry, being a pioneer of the personal computer ('PC') age in Australia. He is the former Managing Director of Computer Technologies Limited, having retired from that position at the age of 55. Anthony joined the Board of Pinnacle Listed Practical Limited in July 2023 and was elected Chairman in October 2023.

Other current directorships: Non-Executive Director of Computer DisAbility Limited (since January 2004)
Former directorships (last 3 years): Executive Director of Computer Technologies Limited (from July 1997 to July 2023)
Special responsibilities: Chairman of the Nomination and Remuneration Committee
Interests in shares: None
Interests in options: None
Contractual rights to shares: None

Name: Brad Example
Title: Managing Director and Chief Executive Officer
Qualifications: BSc, BA, MBA
Experience and expertise: Brad has over 30 years of experience in the computer industry and developed the OzStar computer language. Brad joined the consolidated entity in 1996 and was promoted to Managing Director in July 1999.

Other current directorships: None
Former directorships (last 3 years): None
Special responsibilities: Member of the Nomination and Remuneration Committee
Interests in shares: 5,886,200 ordinary shares
Interests in options: None
Contractual rights to shares: None

Name: Christina Example
Title: Finance Director
Qualifications: B.Com, MBA, CA (Australia), FCA (England and Wales)
Experience and expertise: Christina has 24 years of experience in finance, including expertise in management reporting, financial reporting and financial forecasting. Christina joined the consolidated entity in 2016 as the Finance Director.

Other current directorships: Non-Executive Director of Early Childhood Education Limited (since March 2018)
Former directorships (last 3 years): None
Special responsibilities: Member of the Nomination and Remuneration Committee and the Audit and Risk Committee

Interests in shares: 73,569 ordinary shares
Interests in options: None
Contractual rights to shares: None

Name: Daniel Example
Title: Non-Executive Director
Qualifications: BA
Experience and expertise: Daniel has held various directorships over the past 40 years and has a broad range of skills that aide in the long-term strategic planning of the consolidated entity. Daniel was Pinnacle Listed Practical Limited's founder in 1989 and was the Managing Director up to July 1999. He became a Non-Executive Director from July 2013.

Other current directorships: Non-Executive Director of Computer DisAbility Limited (since April 2007) and Secure Payment Processes Limited (since December 2008)

Former directorships (last 3 years): Non-Executive Director of Computer Importers of Australia Limited (from February 2002 to March 2023)

Special responsibilities: Member of the Nomination and Remuneration Committee and Chairman of the Audit and Risk Committee

Interests in shares: 20,500,000 ordinary shares
Interests in options: None
Contractual rights to shares: None

Name: Elizabeth Example (resigned on 20 February 2026)
Title: Former Non-Executive Director
Qualifications: BSc
Experience and expertise: Elizabeth has held various directorships over the past 20 years in the logistics industry and joined the consolidated entity as a Non-Executive Director in October 2011 to aide in the integration of the computer distribution division.

Other current directorships: Non-Executive Director of LogiComp Limited (since July 2001) and Ontrack Distribution Limited (since December 2004)

Former directorships (last 3 years): Non-Executive Director of Dahl Systems Limited (from March 2003 to September 2023)

Special responsibilities: Former Member of the Nomination and Remuneration Committee and the Audit and Risk Committee

Interests in shares: Not applicable as no longer a director
Interests in options: Not applicable as no longer a director
Contractual rights to shares: Not applicable as no longer a director

'Other current directorships' quoted above are current directorships for listed entities only and excludes directorships of all other types of entities, unless otherwise stated.

'Former directorships (last 3 years)' quoted above are directorships held in the last 3 years for listed entities only and excludes directorships of all other types of entities, unless otherwise stated.

Company secretary

CA300(10)(d)

Fabian Example (BA, LLB) has held the role of Company Secretary since November 1997. He was previously the Company Secretary of Northwestern Bank of NSW Limited for 14 years. Fabian is a member of the Governance Institute of Australia ('GIA').

Meetings of directors

CA300(10)(b),(c)

The number of meetings of the company's Board of Directors ('the Board') and of each Board committee held during the year ended 31 December 2025, and the number of meetings attended by each director were:

	Full board		Nomination and Remuneration Committee		Audit and Risk Committee	
	Attended	Held	Attended	Held	Attended	Held
Anthony Example	12	12	2	2	-	-
Brad Example	12	12	1	2	-	-
Christina Example	10	12	2	2	2	2
Daniel Example	12	12	2	2	2	2
Elizabeth Example	8	12	2	2	2	2

Held: represents the number of meetings held during the time the director held office or was a member of the relevant committee.

Remuneration report (audited)

CA300A(1),(1A)

The remuneration report details the key management personnel remuneration arrangements for the consolidated entity, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional information
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

The objective of the consolidated entity's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with the achievement of strategic objectives and the creation of value for shareholders, and it is considered to conform to the market best practice for the delivery of reward. The Board of Directors ('the Board') ensures that executive reward satisfies the following key criteria for good reward governance practices:

CA300A(1)(a)

- competitiveness and reasonableness
- acceptability to shareholders
- performance linkage / alignment of executive compensation
- transparency

The Nomination and Remuneration Committee is responsible for determining and reviewing remuneration arrangements for its directors and executives. The performance of the consolidated entity depends on the quality of its directors and executives. The remuneration philosophy is to attract, motivate and retain high performance and high quality personnel.

In consultation with external remuneration consultants (refer to the section 'Use of remuneration consultants' below), the Nomination and Remuneration Committee has structured an executive remuneration framework that is market competitive and complementary to the reward strategy of the consolidated entity.

The reward framework is designed to align executive reward to shareholders' interests. The Board have considered that it should seek to enhance shareholders' interests by:

- having economic profit as a core component of plan design
- focusing on sustained growth in shareholder wealth, consisting of dividends and growth in share price, and delivering constant or increasing return on assets as well as focusing the executive on key non-financial drivers of value
- attracting and retaining high calibre executives

Additionally, the reward framework should seek to enhance executives' interests by:

- rewarding capability and experience
- reflecting competitive reward for contribution to growth in shareholder wealth
- providing a clear structure for earning rewards

In accordance with best practice corporate governance, the structure of non-executive director and executive director remuneration is separate.

Non-executive directors remuneration

CR2M.3.03(1) Item 13

Fees and payments to non-executive directors reflect the demands and responsibilities of their role. Non-executive directors' fees and payments are reviewed annually by the Nomination and Remuneration Committee. The Nomination and Remuneration Committee may, from time to time, receive advice from independent remuneration consultants to ensure non-executive directors' fees and payments are appropriate and in line with the market. The chairman's fees are determined independently to the fees of other non-executive directors based on comparative roles in the external market. The chairman is not present at any discussions relating to the determination of his own remuneration. Non-executive directors do not receive share options or other incentives.

ASX listing rules require the aggregate non-executive directors' remuneration be determined periodically by a general meeting. The most recent determination was at the Annual General Meeting held on [date], where the shareholders approved a maximum annual aggregate remuneration of \$300,000.

Executive remuneration

CR2M.3.03(1) Item 13

The consolidated entity aims to reward executives based on their position and responsibility, with a level and mix of remuneration which has both fixed and variable components.

The executive remuneration and reward framework has four components:

- base pay and non-monetary benefits
- short-term performance incentives
- share-based payments
- other remuneration such as superannuation and long service leave

The combination of these comprises the executive's total remuneration.

Fixed remuneration, consisting of base salary, superannuation and non-monetary benefits, are reviewed annually by the Nomination and Remuneration Committee based on individual and business unit performance, the overall performance of the consolidated entity and comparable market remunerations.

Executives may receive their fixed remuneration in the form of cash or other fringe benefits (for example motor vehicle benefits) where it does not create any additional costs to the consolidated entity and provides additional value to the executive.

The short-term incentives ('STI') program is designed to align the targets of the business units with the performance hurdles of executives. STI payments are granted to executives based on specific annual targets and key performance indicators ('KPI's') being achieved. KPI's include profit contribution, customer satisfaction, leadership contribution and product management. CA300A(1)(ba)

The long-term incentives ('LTI') include long service leave and share-based payments. Shares are awarded to executives over a period of three years based on long-term incentive measures. These include increase in shareholders value relative to the entire market and the increase compared to the consolidated entity's direct competitors. The Nomination and Remuneration Committee reviewed the long-term equity-linked performance incentives specifically for executives during the year ended 31 December 2025. CA300A(1)(ba)

Consolidated entity performance and link to remuneration

Remuneration for certain individuals is directly linked to the performance of the consolidated entity. A portion of cash bonus and incentive payments are dependent on defined earnings per share targets being met. The remaining portion of the cash bonus and incentive payments are at the discretion of the Nomination and Remuneration Committee. Refer to the section 'Additional information' below for details of the earnings and total shareholders return for the last five years. CA300A(1)(b)

The Nomination and Remuneration Committee is of the opinion that the continued improved results can be attributed in part to the adoption of performance based compensation and is satisfied that this improvement will continue to increase shareholder wealth if maintained over the coming years.

Use of remuneration consultants

During the financial year ended 31 December 2025, the consolidated entity, through the Nomination and Remuneration Committee, engaged Fuji and Co, remuneration consultants, to review its existing remuneration policies and provide recommendations on how to improve both the STI and LTI programs. This has resulted in share-based payments remuneration in the form of options (LTI) being implemented. Fuji and Co was paid \$28,200 for these services. CA300A(1)(h)

An agreed set of protocols were put in place to ensure that the remuneration recommendations would be free from undue influence from key management personnel. These protocols include requiring that the consultant not communicate with affected key management personnel without a member of the Nomination and Remuneration Committee being present, and that the consultant not provide any information relating to the outcome of the engagement with the affected key management personnel. The Board is also required to make inquiries of the consultant's processes at the conclusion of the engagement to ensure that they are satisfied that any recommendations made have been free from undue influence. The Board is satisfied that these protocols were followed and as such there was no undue influence.

Voting and comments made at the company's 2024 Annual General Meeting ('AGM')

At the 2024 AGM, 91% of the votes received supported the adoption of the remuneration report for the year ended 31 December 2024. The company did not receive any specific feedback at the AGM regarding its remuneration practices. CA300A(1)(g)

Details of remuneration

Amounts of remuneration

Details of the remuneration of key management personnel of the consolidated entity are set out in the following tables.

CA300A(1)(c)

The key management personnel of the consolidated entity consisted of the following directors of Pinnacle Listed Practical Limited: CR2M.3.03(1) Items 1-3

- Anthony Example - Non-Executive Chairman

Kylie Example	100%	-	-	-	-	-

Cash bonuses are dependent on meeting defined performance measures. The amount of the bonus is determined having regard to the satisfaction of performance measures and weightings as described above in the section 'Consolidated entity performance and link to remuneration'. The maximum bonus values are established at the start of each financial year and amounts payable are determined in the final month of the financial year by the Nomination and Remuneration Committee.

CR2M.3.03(1) Item 12(c)

The proportion of the cash bonus paid/payable or forfeited is as follows:

CR2M.3.03(1) Item 12(e), (f)

Key management personnel have no entitlement to termination payments in the event of removal for misconduct.

CA300A(1)(e)(vii)

Share-based compensation

Issue of shares

Details of shares issued to directors and other key management personnel as part of compensation during the year ended 31 December 2025 are set out below:

CR2M.3.03(1) Item 12(b),
(c)

Name	Date	Shares	Issue price	\$
Brad Example	[date]	40,000	\$2.50	100,000
Christina Example	[date]	34,000	\$2.50	85,000
Fabian Example	[date]	14,000	\$2.50	35,000
Jack Example	[date]	12,000	\$2.50	30,000

Options

CA300(1)(d)(ii),
CR2M.3.03(1) Item 15

The terms and conditions of each grant of options over ordinary shares affecting remuneration of directors and other key management personnel in this financial year or future reporting years are as follows:

Name	Number of options granted	Grant date	Vesting date and exercisable date	Expiry date	Exercise price	Fair value per option at grant date
Grace Example	10,000	[date]	[date]	[date]	\$3.00	\$0.489
Henry Example	7,500	[date]	[date]	[date]	\$3.00	\$0.489

Options granted carry no dividend or voting rights.

All options were granted over unissued fully paid ordinary shares in the company. The number of options granted was determined having regard to the satisfaction of performance measures and weightings as described above in the section 'Consolidated entity performance and link to remuneration'. Options vest based on the provision of service over the vesting period whereby the executive becomes beneficially entitled to the option on vesting date. Options are exercisable by the holder as from the vesting date. There has not been any alteration to the terms or conditions of the grant since the grant date. There are no amounts paid or payable by the recipient in relation to the granting of such options other than on their potential exercise.

Values of options over ordinary shares granted, exercised and lapsed for directors and other key management personnel as part of compensation during the year ended 31 December 2025 are set out below: CA300A(1)(e)(ii)-(iv)

Name	Value of options granted during the year \$	Value of options exercised during the year \$	Value of options lapsed during the year \$	Remuneration consisting of options for the year %
Grace Example	4,890	1,027	-	1%
Henry Example	3,668	-	-	2%

Additional information

Elizabeth Example	2,550,000	-	-	-	2,550,000
Brad Example	4,246,200	40,000	1,600,000	-	5,886,200
Christina Example	39,569	34,000	-	-	73,569
Fabian Example	6,493	14,000	-	-	20,493
Grace Example	2,000	-	10,000	-	12,000
Henry Example	33,089	-	7,491	-	40,580
Isabel Example	10,060	-	-	(5,000)	5,060
Jack Example *	-	12,000	-	(12,000)	-
	21,887,411	100,000	7,117,491	(17,000)	29,087,902

* Disposals/other represents disposals of 7,000 shares during the period and 5,000 shares held at resignation date

Option holding

CR2M.3.03(1) Item 17

The number of options over ordinary shares in the company held during the financial year by each director and other members of key management personnel of the consolidated entity, including their personally related parties, is set out below:

	Balance at the start of the year	Granted	Exercised	Expired/ forfeited/ other	Balance at the end of the year
<i>Options over ordinary shares</i>					
Grace Example	10,000	10,000	(10,000)	-	10,000
Henry Example	-	7,500	-	-	7,500
	<u>10,000</u>	<u>17,500</u>	<u>(10,000)</u>	<u>-</u>	<u>17,500</u>

Other transactions with key management personnel and their related parties

CR2M.3.03(1) Item 22

During the financial year, payments for marketing services from BE Promotions Pty Limited (director-related entity of Brad Example) of \$81,238 were made. The current trade payable balance as at 31 December 2025 was \$7,108. All transactions were made on normal commercial terms and conditions and at market rates.

This concludes the remuneration report, which has been audited.

Shares under option

CA300(1)(e),(3),(6)

Unissued ordinary shares of Pinnacle Listed Practical Limited under option at the date of this report are as follows:

Grant date	Expiry date	Exercise price	Number under option
[date]	[date]	\$3.00	17,500

No person entitled to exercise the options had or has any right by virtue of the option to participate in any share issue of the company or of any other body corporate. CA300(6)(e)

Shares issued on the exercise of options

CA300(1)(f),(3),(7)

The following ordinary shares of Pinnacle Listed Practical Limited were issued during the year ended 31 December 2025 and up to the date of this report on the exercise of options granted: CA300(5)(c)

Date options granted	Exercise price	Number of shares issued
[date]	\$2.50	10,000

Indemnity and insurance of officers

CA300(1)(g),(8),(9)

The company has indemnified the directors and executives of the company for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the company paid a premium in respect of a contract to insure the directors and executives of the company against a liability to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Indemnity and insurance of auditor

CA300(1)(g),(8),(9)

The company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

Proceedings on behalf of the company

CA300(14)

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

Non-audit services

Details of the amounts paid or payable to the auditor for non-audit services provided during the financial year by the auditor are outlined in note 52 to the financial statements. CA300(11B)(a)

The directors are satisfied that the provision of non-audit services during the financial year, by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. CA300(11B)(b),(c)

The directors are of the opinion that the services as disclosed in note 52 to the financial statements do not compromise the external auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risks and rewards.

CA300(11B)(c)

Officers of the company who are former partners of Accounting Firm 123

CA300(1)(ca)

There are no officers of the company who are former partners of Accounting Firm 123.

Rounding of amounts

The company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

ASIC CI2026/183

Auditor's independence declaration

CA298(1AA)(c)

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

Auditor

Accounting Firm 123 continues in office in accordance with section 327 of the Corporations Act 2001.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

Effects of exchange rate changes on cash and cash equivalents	12	8	AASB107(28)
Cash and cash equivalents at the end of the financial year	13 26,136	4,251	

The above statement of cash flows should be read in conjunction with the accompanying notes

Note 1. Material accounting policy information

AASB18(113)(a),
AASB108(27A)

The accounting policies that are material to the consolidated entity are set out below. The accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

AASB108(13)

New or amended Accounting Standards and Interpretations adopted

AASB18(30)(a)

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The following Accounting Standards and Interpretations are most relevant to the consolidated entity:

AASB 18 Presentation and Disclosure in Financial Statements

The consolidated entity has early adopted AASB 18 from 1 January 2025. The standard replaces AASB 101 'Presentation of Financial Statements', with many of the original disclosure requirements retained and no impact on the recognition and measurement of items in the financial statements. But the standard affects presentation and disclosure in the financial statements, including introducing five categories in the statement of profit or loss and other comprehensive income: operating, investing, financing, income taxes and discontinued operations. The standard introduces two mandatory sub-totals in the statement: 'Operating profit' and 'Profit before financing and income taxes'. There are also new disclosure requirements for 'management-defined performance measures', such as earnings before interest, taxes, depreciation and amortisation ('EBITDA') or 'adjusted profit'. The standard provides enhanced guidance on grouping of information (aggregation and disaggregation), including whether to present this information in the primary financial statements or in the notes.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

AASB108(6B)

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

AASB108(27C)

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

AASB108(27G),(31A)

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 57.

CR2M.3.01(1)

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Pinnacle Listed Practical Limited ('company' or 'parent entity') as at 31 December 2025 and the results of all subsidiaries for the year then ended. Pinnacle Listed Practical Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

AASB10(4),(B86)(a)

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

AASB10(5)-(7)

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

AASB10(B86)(c)

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

AASB10(23),(B86)(b)

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

AASB10(22),(B94)

Note 1. Material accounting policy information (continued)

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss. AASB10(25),(B97)-(B99)

Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance. AASB8(5)

Foreign currency translation

The financial statements are presented in Australian dollars, which is Pinnacle Listed Practical Limited's functional and presentation currency. AASB18(27)(d)

Foreign currency transactions

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss. AASB121(21),(28)

Foreign operations

The assets and liabilities of foreign operations are translated into Australian dollars using the exchange rates at the reporting date. The revenues and expenses of foreign operations are translated into Australian dollars using the average exchange rates, which approximate the rates at the dates of the transactions, for the period. All resulting foreign exchange differences are recognised in other comprehensive income through the foreign currency reserve in equity. AASB121(32)

The foreign currency reserve is recognised in profit or loss when the foreign operation or net investment is disposed of. AASB121(32)

Revenue recognition

The consolidated entity recognises revenue as follows:

Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the consolidated entity is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the consolidated entity: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised. AASB15(119),(126)

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are recognised as a refund liability. AASB15(119),(126)

Sale of goods

Revenue from the sale of goods is recognised at the point in time when the customer obtains control of the goods, which is generally at the time of delivery. AASB15(119)(a)

Rendering of services

Revenue from a contract to provide services is recognised over time as the services are rendered based on either a fixed price or an hourly rate. AASB15(119)(a),(124)

Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset. AASB9(5.4.1)

Rent

Rent revenue from investment properties is recognised on a straight-line basis over the lease term. Lease incentives granted are recognised as part of the rental revenue. Contingent rentals are recognised as income in the period when earned.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Note 1. Material accounting policy information (continued)

Government grants

Government grants relating to costs are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate.

Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable. ^{AASB112(46)}

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for: ^{AASB112(15),(24),(47)}

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. ^{AASB112(24),(34)}

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset. ^{AASB112(56)}

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously. ^{AASB112(74)}

Pinnacle Listed Practical Limited (the 'head entity') and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime. The head entity and each subsidiary in the tax consolidated group continue to account for their own current and deferred tax amounts. The tax consolidated group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to members of the tax consolidated group. ^{UIG1052(16)(a),(b)}

In addition to its own current and deferred tax amounts, the head entity also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from each subsidiary in the tax consolidated group. ^{UIG1052(12)}

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax consolidated group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity. ^{UIG1052(16)(c)}

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification. ^{AASB18(96)}

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current. ^{AASB18(99)}

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no right at the end of the reporting period to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current. ^{AASB18(101)}

Deferred tax assets and liabilities are always classified as non-current. ^{AASB18(98)}

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the statement of cash flows presentation purposes, cash and cash equivalents also includes bank overdrafts, which are shown within borrowings in current liabilities on the statement of financial position. ^{AASB107(6),(8),(46)}

Note 1. Material accounting policy information (continued)

Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days. AASB9(5.1.3)

The consolidated entity has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue. AASB7(35F)(c)

Other receivables are recognised at amortised cost, less any allowance for expected credit losses. AASB9(5.1.1)

Contract assets

Contract assets are recognised when the consolidated entity has transferred goods or services to the customer but where the consolidated entity is yet to establish an unconditional right to consideration. Contract assets are treated as financial assets for impairment purposes. AASB15(107),(117)

Customer acquisition costs

Customer acquisition costs are capitalised as an asset where such costs are incremental to obtaining a contract with a customer and are expected to be recovered. Customer acquisition costs are amortised on a straight-line basis over the term of the contract. AASB15(91),(92),(127)

Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained or which are not otherwise recoverable from a customer are expensed as incurred to profit or loss. Incremental costs of obtaining a contract where the contract term is less than one year is immediately expensed to profit or loss. AASB15(93),(94)

Customer fulfilment costs

Customer fulfilment costs are capitalised as an asset when all the following are met: (i) the costs relate directly to the contract or specifically identifiable proposed contract; (ii) the costs generate or enhance resources of the consolidated entity that will be used to satisfy future performance obligations; and (iii) the costs are expected to be recovered. Customer fulfilment costs are amortised on a straight-line basis over the term of the contract. AASB15(95),(127)

Right of return assets

Right of return assets represents the right to recover inventory sold to customers and is based on an estimate of customers who may exercise their right to return the goods and claim a refund. Such rights are measured at the value at which the inventory was previously carried prior to sale, less expected recovery costs and any impairment. AASB15(126)(d)

Inventories

Raw materials, work in progress and finished goods are stated at the lower of cost and net realisable value on a 'first in first out' basis. Cost comprises of direct materials and delivery costs, direct labour, import duties and other taxes, an appropriate proportion of variable and fixed overhead expenditure based on normal operating capacity, and, where applicable, transfers from cash flow hedging reserves in equity. Costs of purchased inventory are determined after deducting rebates and discounts received or receivable. AASB102(36)(a)
AASB102(9),(10),(25)

Stock in transit is stated at the lower of cost and net realisable value. Cost comprises of purchase and delivery costs, net of rebates and discounts received or receivable. AASB102(9)

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. AASB102(6)

Derivative financial instruments

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. AASB9(5.5.1)

Cash flow hedges

Cash flow hedges are used to cover the consolidated entity's exposure to variability in cash flows that is attributable to particular risks associated with a recognised asset or liability or a firm commitment which could affect profit or loss. The effective portion of the gain or loss on the hedging instrument is recognised in other comprehensive income through the cash flow hedges reserve in equity, whilst the ineffective portion is recognised in profit or loss. Amounts taken to equity are transferred out of equity and included in the measurement of the hedged transaction when the forecast transaction occurs. AASB139(95),(97),(98)

Cash flow hedges are tested for effectiveness on a regular basis both retrospectively and prospectively to ensure that each hedge is highly effective and continues to be designated as a cash flow hedge. If the forecast transaction is no longer expected to occur, the amounts recognised in equity are transferred to profit or loss. AASB139(AG105), (AG106)

If the hedging instrument is sold, terminated, expires, exercised without replacement or rollover, or if the hedge becomes ineffective and is no longer a designated hedge, the amounts previously recognised in equity remain in equity until the forecast transaction occurs. AASB139(101)

Note 1. Material accounting policy information (continued)

Non-current assets or disposal groups classified as held for sale

Non-current assets and assets of disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continued use. They are measured at the lower of their carrying amount and fair value less costs of disposal. For non-current assets or assets of disposal groups to be classified as held for sale, they must be available for immediate sale in their present condition and their sale must be highly probable. AASB5(6),(15)

An impairment loss is recognised for any initial or subsequent write down of the non-current assets and assets of disposal groups to fair value less costs of disposal. A gain is recognised for any subsequent increases in fair value less costs of disposal of non-current assets and assets of disposal groups, but not in excess of any cumulative impairment loss previously recognised. AASB5(20)-(22)

Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of assets held for sale continue to be recognised. AASB5(25)

Non-current assets classified as held for sale and the assets of disposal groups classified as held for sale are presented separately on the face of the statement of financial position, in current assets. The liabilities of disposal groups classified as held for sale are presented separately on the face of the statement of financial position, in current liabilities. AASB5(38)

Associates

Associates are entities over which the consolidated entity has significant influence but not control or joint control. Investments in associates are accounted for using the equity method. Under the equity method, the share of the profits or losses of the associate is recognised in profit or loss and the share of the movements in equity is recognised in other comprehensive income. Investments in associates are carried in the statement of financial position at cost plus post-acquisition changes in the consolidated entity's share of net assets of the associate. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment. Dividends received or receivable from associates reduce the carrying amount of the investment. AASB128(10),(32)

When the consolidated entity's share of losses in an associate equals or exceeds its interest in the associate, including any unsecured long-term receivables, the consolidated entity does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate. AASB128(38),(39)

The consolidated entity discontinues the use of the equity method upon the loss of significant influence over the associate and recognises any retained investment at its fair value. Any difference between the associate's carrying amount, fair value of the retained investment and proceeds from disposal is recognised in profit or loss. AASB128(22)

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless an accounting mismatch is being avoided. AASB9(5.1.1)

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off. AASB9(3.2.3)

Financial assets at fair value through profit or loss

Financial assets not measured at amortised cost or at fair value through other comprehensive income are classified as financial assets at fair value through profit or loss. Typically, such financial assets will be either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit, or a derivative; or (ii) designated as such upon initial recognition where permitted. Fair value movements are recognised in profit or loss. AASB9(4.1.4)

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income include equity investments which the consolidated entity intends to hold for the foreseeable future and has irrevocably elected to classify them as such upon initial recognition. AASB9(4.1.2A), AASB7(11A)(b)

Impairment of financial assets

The consolidated entity recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the consolidated entity's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain. AASB9(5.5.1),(5.5.9)

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate. AASB9(5.5.3)

Note 1. Material accounting policy information (continued)

For financial assets mandatorily measured at fair value through other comprehensive income, the loss allowance is recognised in other comprehensive income with a corresponding expense through profit or loss. In all other cases, the loss allowance reduces the asset's carrying value with a corresponding expense through profit or loss. ^{AASB9(5.5.2)}

Investment properties

Investment properties principally comprise of freehold land and buildings held for long-term rental and capital appreciation that are not occupied by the consolidated entity. Investment properties are initially recognised at cost, including transaction costs, and are subsequently remeasured annually at fair value. Movements in fair value are recognised directly to profit or loss. ^{AASB140(75)(a)}

Investment properties are derecognised when disposed of or when there is no future economic benefit expected. ^{AASB140(66)}

Transfers to and from investment properties to property, plant and equipment are determined by a change in use of owner-occupation. The fair value on the date of change of use from investment properties to property, plant and equipment are used as deemed cost for the subsequent accounting. The existing carrying amount of property, plant and equipment is used for the subsequent accounting cost of investment properties on the date of change of use. ^{AASB140(57)}

Investment properties also include properties under construction for future use as investment properties. These are carried at fair value, or at cost where fair value cannot be reliably determined and the construction is incomplete.

Property, plant and equipment

Land and buildings are shown at fair value, based on periodic, at least every 3 years, valuations by external independent valuers, less subsequent depreciation and impairment for buildings. The valuations are undertaken more frequently if there is a material change in the fair value relative to the carrying amount. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Increases in the carrying amounts arising on revaluation of land and buildings are credited in other comprehensive income through to the revaluation surplus reserve in equity. Any revaluation decrements are initially taken in other comprehensive income through to the revaluation surplus reserve to the extent of any previous revaluation surplus of the same asset. Thereafter the decrements are taken to profit or loss. ^{AASB116(73)(a)}

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items. ^{AASB116(73)(a)}

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows: ^{AASB116(73)(b),(c)}

Buildings	40 years
Leasehold improvements	3-10 years
Plant and equipment	3-7 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date. ^{AASB116(51)}

Leasehold improvements are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits. ^{AASB116(67)}

Right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset. ^{AASB16(23),(24)}

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities. ^{AASB16(30),(32)}

The consolidated entity has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred. ^{AASB16(5),(6)}

Note 1. Material accounting policy information (continued)

Intangible assets

Intangible assets acquired as part of a business combination, other than goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Indefinite life intangible assets are not amortised and are subsequently measured at cost less any impairment. Finite life intangible assets are subsequently measured at cost less amortisation and any impairment. The gains or losses recognised in profit or loss arising from the derecognition of intangible assets are measured as the difference between net disposal proceeds and the carrying amount of the intangible asset. The method and useful lives of finite life intangible assets are reviewed annually. Changes in the expected pattern of consumption or useful life are accounted for prospectively by changing the amortisation method or period. AASB138(24),(33),(74),
(89)

Goodwill

Goodwill arises on the acquisition of a business. Goodwill is not amortised. Instead, goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are taken to profit or loss and are not subsequently reversed. AASB3(18),(32),
AASB136(10),
AASB138(107)

Research and development

Research costs are expensed in the period in which they are incurred. Development costs are capitalised when it is probable that the project will be a success considering its commercial and technical feasibility; the consolidated entity is able to use or sell the asset; the consolidated entity has sufficient resources and intent to complete the development; and its costs can be measured reliably. Capitalised development costs are amortised on a straight-line basis over the period of their expected benefit, being their finite life of 10 years. AASB138(54),(57),
(118)(a),(b)

Patents and trademarks

Significant costs associated with patents and trademarks are deferred and amortised on a straight-line basis over the period of their expected benefit, being their finite life of 10 years. AASB138(118)(a),(b)

Customer contracts

Customer contracts acquired in a business combination are amortised on a straight-line basis over the period of their expected benefit, being their finite life of 5 years. AASB138(118)(a),(b)

Software

Significant costs associated with software are deferred and amortised on a straight-line basis over the period of their expected benefit, being their finite life of 5 years. AASB138(118)(a),(b)

Impairment of non-financial assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. AASB136(9),(10)

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit. AASB136(18),(66)

Trade and other payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition. AASB9(5.1.1)

Contract liabilities

Contract liabilities represent the consolidated entity's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the consolidated entity recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the consolidated entity has transferred the goods or services to the customer. AASB15(106),(117)

Refund liabilities

Refund liabilities are recognised where the consolidated entity receives consideration from a customer and expects to refund some, or all, of that consideration to the customer. A refund liability is measured at the amount of consideration received or receivable for which the consolidated entity does not expect to be entitled and is updated at the end of each reporting period for changes in circumstances. Historical data is used across product lines to estimate such returns at the time of sale based on an expected value methodology. AASB15(126)(d)

Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method. AASB9(5.1.1)

Note 1. Material accounting policy information (continued)

Lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated entity's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred. ^{AASB16(26),(27),(38)}

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down. ^{AASB16(39),(40),(42)}

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred. ^{AASB123(8)}

Provisions

Provisions are recognised when the consolidated entity has a present (legal or constructive) obligation as a result of a past event, it is probable the consolidated entity will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost. ^{AASB137(14),(36),(45),(47),(60)}

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled. ^{AASB119(11),(13)}

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows. ^{AASB119(154)}

Defined contribution superannuation expense

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred. ^{AASB119(51)}

Share-based payments

Equity-settled and cash-settled share-based compensation benefits are provided to employees.

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions. ^{AASB2(16)}

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods. ^{AASB2(10)}

Note 1. Material accounting policy information (continued)

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows: ^{AASB2(30)}

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability. ^{AASB2(30)}

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied. ^{AASB2(21)}

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification. ^{AASB2(27)}

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited. ^{AASB2(28)(a)}

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification. ^{AASB2(28)}

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market. ^{AASB13(9),(16)}

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. ^{AASB13(22),(27),(61)}

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement. ^{AASB13(72),(95)}

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data. ^{AASB13(93)(g)}

Issued capital

Ordinary shares are classified as equity.

^{AASB132(11)}

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. ^{AASB132(35),(37)}

Dividends

Dividends are recognised when declared during the financial year and no longer at the discretion of the company.

Business combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired. ^{AASB3(4)}

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree and the amount of any non-controlling interest in the acquiree. For each business combination, the non-controlling interest in the acquiree is measured at either fair value or at the proportionate share of the acquiree's identifiable net assets. All acquisition costs are expensed as incurred to profit or loss. ^{AASB3(37),(B44)}

Note 1. Material accounting policy information (continued)

On the acquisition of a business, the consolidated entity assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the consolidated entity's operating or accounting policies and other pertinent conditions in existence at the acquisition-date. ^{AASB3(10)}

Where the business combination is achieved in stages, the consolidated entity remeasures its previously held equity interest in the acquiree at the acquisition-date fair value and the difference between the fair value and the previous carrying amount is recognised in profit or loss. ^{AASB3(42)}

Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date fair value. Subsequent changes in the fair value of the contingent consideration classified as an asset or liability is recognised in profit or loss. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. ^{AASB3(39),(40)}

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition-date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer. ^{AASB3(32)}

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value. ^{AASB3(45)}

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of Pinnacle Listed Practical Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year. ^{AASB133(10)}

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares. ^{AASB133(31)}

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense. ^{UIG1031(6),(7)}

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position. ^{UIG1031(8),(9)}

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows. ^{UIG1031(10),(11)}

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority. ^{AASB137(41)}

Rounding of amounts

The company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar. ^{AASB18(27)(e)}

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 31 December 2025. The consolidated entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations. ^{AASB108(30)}

Note 2. Critical accounting judgements, estimates and assumptions

AASB108(27G),(31A)

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The consolidated entity measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity. Refer to note 68 for further information.

Revenue from contracts with customers involving sale of goods

When recognising revenue in relation to the sale of goods to customers, the key performance obligation of the consolidated entity is considered to be the point of delivery of the goods to the customer, as this is deemed to be the time that the customer obtains control of the promised goods and therefore the benefits of unimpeded access. AASB15(123),(125)

Determination of variable consideration

Judgement is exercised in estimating variable consideration which is determined having regard to past experience with respect to the goods returned to the consolidated entity where the customer maintains a right of return pursuant to the customer contract or where goods or services have a variable component. Revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised under the contract will not occur when the uncertainty associated with the variable consideration is subsequently resolved. AASB15(123),(125)

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience, historical collection rates and forward-looking information that is available. The allowance for expected credit losses, as disclosed in note 14, is calculated based on the information available at the time of preparation. The actual credit losses in future years may be higher or lower. AASB9(5.5.17)

Provision for impairment of inventories

The provision for impairment of inventories assessment requires a degree of estimation and judgement. The level of the provision is assessed by taking into account the recent sales experience, the ageing of inventories and other factors that affect inventory obsolescence.

Fair value measurement hierarchy

The consolidated entity is required to classify all assets and liabilities, measured at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being: Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date; Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3: Unobservable inputs for the asset or liability. Considerable judgement is required to determine what is significant to fair value and therefore which category the asset or liability is placed in can be subjective.

The fair value of assets and liabilities classified as level 3 is determined by the use of valuation models. These include discounted cash flow analysis or the use of observable inputs that require significant adjustments based on unobservable inputs. Refer to note 50 for further information.

Estimation of useful lives of assets

The consolidated entity determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Goodwill and other indefinite life intangible assets

The consolidated entity tests annually, or more frequently if events or changes in circumstances indicate impairment, whether goodwill and other indefinite life intangible assets have suffered any impairment, in accordance with the accounting policy stated in note 1. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of assumptions, including estimated discount rates based on the current cost of capital and growth rates of the estimated future cash flows. Refer to note 26 for further information.

Note 2. Critical accounting judgements, estimates and assumptions (continued)

Impairment of non-financial assets other than goodwill and other indefinite life intangible assets

The consolidated entity assesses impairment of non-financial assets other than goodwill and other indefinite life intangible assets at each reporting date by evaluating conditions specific to the consolidated entity and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

Income tax

The consolidated entity is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The consolidated entity recognises liabilities for anticipated tax audit issues based on the consolidated entity's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences only if the consolidated entity considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Lease term

The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease commencement date. Factors considered may include the importance of the asset to the consolidated entity's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. The consolidated entity reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.

Incremental borrowing rate

Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the consolidated entity estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.

Employee benefits provision

As discussed in note 1, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

Lease make good provision

A provision has been made for the present value of anticipated costs for future restoration of leased premises. The provision includes future cost estimates associated with closure of the premises. The calculation of this provision requires assumptions such as application of closure dates and cost estimates. The provision recognised for each site is periodically reviewed and updated based on the facts and circumstances available at the time. Changes to the estimated future costs for sites are recognised in the statement of financial position by adjusting the asset and the provision. Reductions in the provision that exceed the carrying amount of the asset will be recognised in profit or loss.

Warranty provision

In determining the level of provision required for warranties the consolidated entity has made judgements in respect of the expected performance of the products, the number of customers who will actually claim under the warranty and how often, and the costs of fulfilling the conditions of the warranty. The provision is based on estimates made from historical warranty data associated with similar products and services.

Business combinations

As discussed in note 1, business combinations are initially accounted for on a provisional basis. The fair value of assets acquired, liabilities and contingent liabilities assumed are initially estimated by the consolidated entity taking into consideration all available information at the reporting date. Fair value adjustments on the finalisation of the business combination accounting is retrospective, where applicable, to the period the combination occurred and may have an impact on the assets and liabilities, depreciation and amortisation reported.

Note 3. Restatement of comparatives

AASB18(33)

Change in accounting policy

AASB108(36)

The consolidated entity early adopted AASB 18 from 1 January 2025. The standard replaces AASB 101 'Presentation of Financial Statements', with many of the original disclosure requirements retained. Changes to presentation and disclosure in the financial statements include the introduction of five categories in the statement of profit or loss and other comprehensive income: operating, investing, financing, income taxes and discontinued operations. The standard also introduces two mandatory sub-totals in the statement: 'Operating profit' and 'Profit before financing and income taxes'. Extracts (being only those line items affected) are disclosed below.

AASB108(28)(c),(29)(a)

Statement of profit or loss and other comprehensive income

AASB108(49)(b)(i)

Extract	Consolidated		
	2024 \$'000 Reported	\$'000 Adjustment	2024 \$'000 Restated

Basic earnings per share	11.01	-	11.01
Diluted earnings per share	11.01	-	11.01

Statement of financial position at the beginning of the earliest comparative period

AASB108(49)(b)(i),(c)

When there is a restatement of comparatives, it is mandatory to provide a third statement of financial position at the beginning of the earliest comparative period, being 1 January 2024. However, as there were no adjustments made as at 1 January 2024, the consolidated entity has elected not to show the 1 January 2024 statement of financial position.

Note 3. Restatement of comparatives (continued)

Statement of financial position at the end of the earliest comparative period

AASB108(49)(b)(i)

Extract	Consolidated		
	2024 \$'000 Reported	\$'000 Adjustment	2024 \$'000 Restated
Assets			
Non-current assets			
Intangibles	11,616	(9,500)	2,116

Total non-current assets	566,207	-	566,207
Total assets	632,721	-	632,721
Net assets	215,793	-	215,793

Note 4. Operating segments

Identification of reportable operating segments

The consolidated entity is organised into three operating segments based on differences in products and services provided: computer manufacturing, computer retailing and computer distribution. These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments. AASB(22)(a)

Other segments represent the investment property holdings and rental income of the consolidated entity.

AASB(16)

The CODM reviews EBITDA (earnings before interest, tax, depreciation and amortisation). The accounting policies adopted for internal reporting to the CODM are consistent with those adopted in the financial statements. AASB(23)

The information reported to the CODM is on a monthly basis.

Types of products and services

The principal products and services of each of these operating segments are as follows:

AASB(22)(b)

Computer manufacturing	the manufacture and wholesaling of computers and components in Australia
Computer retailing	the retailing of computers and components predominately in Australia
Computer distribution	the freight and cartage of computers and components to customers in Australia

Intersegment transactions

AASB(27)(a)

Intersegment transactions were made at market rates. The computer retailing operating segment purchases finished goods from the computer manufacturing operating segment and pays for freight costs to the computer distribution operating segment. Intersegment transactions are eliminated on consolidation.

Intersegment receivables, payables and loans

AASB(27)(a)

Intersegment loans are initially recognised at the consideration received. Intersegment loans receivable and loans payable that earn or incur non-market interest are not adjusted to fair value based on market interest rates. Intersegment loans are eliminated on consolidation.

Major customers

AASB(34)

During the year ended 31 December 2025 approximately \$69,400,000 (2024: \$77,800,000) of the consolidated entity's external revenue was derived from sales to a major Australian retailer through the computer retailing and computer distribution operating segments.

Note 4. Operating segments (continued)

AASB7(6)

AASB7(6)

Note 14. Current assets - trade and other receivables (continued)

Allowance for expected credit losses

The consolidated entity has recognised a loss of \$491,000 in profit or loss in respect of the expected credit losses for the year ended 31 December 2025. AASB15(113)(b)

The ageing of the receivables and allowance for expected credit losses provided for above are as follows: AASB7(35N)

	Expected credit loss rate		Carrying amount		Allowance for expected credit losses	
	2025	2024	2025	2024	2025	2024
Consolidated	%	%	\$'000	\$'000	\$'000	\$'000
Not overdue	2%	1%	7,334	6,793	147	68
0 to 3 months overdue	7%	5%	5,128	3,951	359	198
3 to 6 months overdue	14%	10%	1,353	1,762	189	176
Over 6 months overdue	50%	50%	734	863	367	432
			14,549	13,369	1,062	874

The consolidated entity has increased its monitoring of debt recovery as there is an increased probability of customers delaying payment or being unable to pay, due to the current environment. As a result, the calculation of expected credit losses has been revised as at 31 December 2025 and rates have increased in each category up to 6 months overdue.

Movements in the allowance for expected credit losses are as follows: AASB7(35H)

	Consolidated	
	2025	2024
	\$'000	\$'000
Opening balance	874	659
Additional provisions recognised	491	432
Receivables written off during the year as uncollectable	(287)	(209)

Balance at 31 December 2025	<u>52,500</u>	<u>15,184</u>	<u>49,455</u>	<u>117,139</u>

Refer to note 50 for further information on fair value measurement.

Land and buildings stated under the historical cost convention

AASB116(77)(e)

If land and buildings were stated under the historical cost convention, the amounts would be as follows:

	Consolidated	
	2025	2024
	\$'000	\$'000
Land and buildings - at cost	46,000	52,000
Less: Accumulated depreciation	(1,059)	(1,007)
	<u>44,941</u>	<u>50,993</u>

Note 25. Non-current assets - right-of-use assets

	Consolidated	
	2025	2024
	\$'000	\$'000
Land and buildings - right-of-use	271,636	271,636
Less: Accumulated depreciation	(37,350)	(23,768)
	<u>234,286</u>	<u>247,868</u>
Plant and equipment - right-of-use	126,363	120,842
Less: Accumulated depreciation	(55,164)	(36,594)
	<u>71,199</u>	<u>84,248</u>
	<u><u>305,485</u></u>	<u><u>332,116</u></u>

AASB16(53)(h)

Additions to the right-of-use assets during the year were \$5,521,000.

Note 25. Non-current assets - right-of-use assets (continued)

The consolidated entity leases land and buildings for its offices, warehouses and retail outlets under agreements of between five to fifteen years with, in some cases, options to extend. The leases have various escalation clauses. On renewal, the terms of the leases are renegotiated. The consolidated entity also leases plant and equipment under agreements of between three to seven years. ^{AASB16(59)}

The consolidated entity leases office equipment under agreements of less than two years. These leases are either short-term or low-value, so have been expensed as incurred and not capitalised as right-of-use assets. ^{AASB16(60)}

For impairment testing, the right-of-use assets have been allocated to the computer retailing cash-generating unit. Refer to note 26 for further information on the impairment testing key assumptions and sensitivity analysis.

Note 26. Non-current assets - intangibles

	Consolidated		
	2025	2024	
	\$'000	\$'000	
Goodwill	9,908	9,500	AASB138(118)(c)
Less: Impairment	(500)	-	AASB138(118)(c)
	<u>9,408</u>	<u>9,500</u>	
Development - at cost	3,208	3,208	AASB138(118)(c)
Less: Accumulated amortisation	(1,605)	(1,284)	AASB138(118)(c)
	<u>1,603</u>	<u>1,924</u>	
Patents and trademarks - at cost	320	320	AASB138(118)(c)

	<u>1,021</u>	<u>-</u>	
Software - at cost	108	108	AASB138(118)(c)
Less: Accumulated amortisation	(66)	(44)	AASB138(118)(c)
	<u>42</u>	<u>64</u>	
	<u>12,170</u>	<u>11,616</u>	

Reconciliations

Reconciliations of the written down values at the beginning and end of the current and previous financial year are set out below:

AASB138(118)(e)

Consolidated	Goodwill	Development	Patents and	Customer	Software	Total
	\$'000	\$'000	trademarks	contracts	\$'000	\$'000
Balance at 1 January 2024	9,500	2,245	160	-	86	11,991
Amortisation expense	-	(321)	(32)	-	(22)	(375)
Balance at 31 December 2024	9,500	1,924	128	-	64	11,616
Additions through business combinations (note 58)	408	-	-	1,250	-	1,658
Impairment of assets	(500)	-	-	-	-	(500)
Amortisation expense	-	(321)	(32)	(229)	(22)	(604)
Balance at 31 December 2025	<u>9,408</u>	<u>1,603</u>	<u>96</u>	<u>1,021</u>	<u>42</u>	<u>12,170</u>

Impairment testing

Goodwill acquired through business combinations have been allocated to the following cash-generating units:

AASB136(134)(a)

	Consolidated	
	2025	2024
	\$'000	\$'000
Computer retailing	8,700	9,200
Computer distribution	708	300
	<u>9,408</u>	<u>9,500</u>

Note 26. Non-current assets - intangibles (continued)

The recoverable amount of the consolidated entity's goodwill has been determined by a value-in-use calculation using a discounted cash flow model, based on a 2 year projection period approved by management and extrapolated for a further 3 years using a steady rate, together with a terminal value. ^{AASB136(130)(e), (134)(c)}

Key assumptions are those to which the recoverable amount of an asset or cash-generating units is most sensitive.

The following key assumptions were used in the discounted cash flow model for the computer retailing division:

- 18% (2024: 18%) pre-tax discount rate;
- 2% (2024: 5%) per annum projected revenue growth rate;
- 5% (2024: 8%) per annum increase in operating costs and overheads.

The discount rate of 18% pre-tax reflects management's estimate of the time value of money and the consolidated entity's weighted average cost of capital adjusted for the computer retailing division, the risk free rate and the volatility of the share price relative to market movements.

Management believes the projected 2% revenue growth rate is prudent and justified, based on the general slowing in the market.

Compared to prior years, management have reduced their estimation of the increase in operating costs and overheads, due to the lower inflation rate and also an effort by the consolidated entity to contain costs.

There were no other key assumptions for the computer retailing division.

Based on the above, an impairment charge of \$500,000 has been applied as the carrying amount of goodwill exceeded its recoverable amount for the computer retailing division.

The following key assumptions were used in the discounted cash flow model for the computer distribution division:

- 17% (2024: 18%) pre-tax discount rate;
- 5% (2024: 5%) per annum projected revenue growth rate.

The discount rate of 17% pre-tax reflects management's estimate of the time value of money and the consolidated entity's weighted average cost of capital adjusted for the computer distribution division, the risk free rate and the volatility of the share price relative to market movements.

Management have estimated a 5% growth in accordance with the acquisition strategy and have no reason to revise this estimation based on current performance.

There were no other key assumptions for the computer distribution division.

Based on the above, the recoverable amount of the computer distribution division exceeded the carrying amount by \$1,250,000.

Sensitivity

AASB136(134)(f)

As disclosed in note 2, the directors have made judgements and estimates in respect of impairment testing of goodwill. Should these judgements and estimates not occur the resulting goodwill carrying amount may decrease. The sensitivities are as follows:

- Revenue would need to decrease by more than 1% for the computer distribution division before goodwill would need to be impaired, with all other assumptions remaining constant.
- The discount rate would be required to increase by 1% for the computer distribution division before goodwill would need to be impaired, with all other assumptions remaining constant.

Management believes that other reasonable changes in the key assumptions on which the recoverable amount of computer distribution division's goodwill is based would not cause the cash-generating unit's carrying amount to exceed its recoverable amount.

If there are any negative changes in the key assumptions on which the recoverable amount of goodwill is based, this would result in a further impairment charge for the computer retailing division's goodwill.

Note 27. Non-current assets - deferred tax

	Consolidated	
	2025	2024
	\$'000	\$'000
<i>Deferred tax asset comprises temporary differences attributable to:</i>		
Amounts recognised in profit or loss:		
Allowance for expected credit losses	296	247

Note 30. Current liabilities - contract liabilities

	Consolidated		
	2025	2024	
	\$'000	\$'000	
Contract liabilities	<u>2,269</u>	<u>2,135</u>	AASB15(116)(a)
<i>Reconciliation</i>			
Reconciliation of the written down values at the beginning and end of the current and previous financial year are set out below:			
			AASB15(118)
Opening balance	2,135	1,974	
Payments received in advance	1,441	1,473	
Cumulative catch-up adjustments	174	249	
Transfer to revenue - included in the opening balance	(1,141)	(1,236)	AASB15(116)(b)
Transfer to revenue - performance obligations satisfied in previous periods	(208)	(178)	AASB15(116)(c)
Transfer to revenue - other balances	<u>(132)</u>	<u>(147)</u>	
Closing balance	<u>2,269</u>	<u>2,135</u>	

Unsatisfied performance obligations

AASB15(120)

The aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied at the end of the reporting period was \$3,891,000 as at 31 December 2025 (\$3,507,000 as at 31 December 2024) and is expected to be recognised as revenue in future periods as follows:

	Consolidated	
	2025	2024
	\$'000	\$'000
Within 6 months	1,482	1,344
6 to 12 months	1,128	1,032
12 to 18 months	874	817
18 to 24 months	<u>407</u>	<u>314</u>
	<u>3,891</u>	<u>3,507</u>

Note 31. Current liabilities - borrowings

	Consolidated		
	2025	2024	
	\$'000	\$'000	
Bank overdraft	-	1,273	AASB7(8)(g)
Bank loans	<u>4,500</u>	<u>2,000</u>	AASB7(8)(g)
	<u>4,500</u>	<u>3,273</u>	

Refer to note 39 for further information on assets pledged as security and financing arrangements.

Refer to note 49 for further information on financial instruments.

Note 32. Current liabilities - lease liabilities

	Consolidated	
	2025	2024
	\$'000	\$'000
Lease liability	<u>22,072</u>	<u>20,905</u>

Refer to note 49 for further information on financial instruments.

Note 33. Current liabilities - derivative financial instruments

	Consolidated		
	2025	2024	
	\$'000	\$'000	
Forward foreign exchange contracts - cash flow hedges	<u>122</u>	<u>107</u>	AASB7(24A)(a)

Note 33. Current liabilities - derivative financial instruments (continued)

Refer to note 49 for further information on financial instruments.

Refer to note 50 for further information on fair value measurement.

Note 34. Current liabilities - income tax

	Consolidated	
	2025	2024
	\$'000	\$'000
Provision for income tax	6,701	2,351

Note 35. Current liabilities - employee benefits

	Consolidated	
	2025	2024
	\$'000	\$'000
Employee benefits	8,352	8,143

Amounts not expected to be settled within the next 12 months

AASB18(97)

The current provision for employee benefits includes all unconditional entitlements where employees have completed the required period of service and also those where employees are entitled to pro-rata payments in certain circumstances. The entire amount is presented as current, since the consolidated entity does not have an unconditional right to defer settlement. However, based on past experience, the consolidated entity does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months.

The following amounts reflect leave that is not expected to be taken within the next 12 months:

	Consolidated	
	2025	2024
	\$'000	\$'000
Employee benefits obligation expected to be settled after 12 months	1,603	1,292

Note 36. Current liabilities - provisions

	Consolidated	
	2025	2024
	\$'000	\$'000
Lease make good	230	-
Legal claims	60	-
Warranties	3,204	2,837
	3,494	2,837

Lease make good

AASB137(85)

The provision represents the present value of the estimated costs to make good the premises leased by the consolidated entity at the end of the respective lease terms.

Legal claims

AASB137(85)

The provision represents a claim by a customer of the computer retailing division. This claim is expected to be settled in the next financial year and the outcome of this claim is not expected to exceed the amount provided for, based on independent legal advice.

Warranties

AASB137(85)

The provision represents the estimated warranty claims in respect of products sold which are still under warranty at the reporting date. The provision is estimated based on historical warranty claim information, sales levels and any recent trends that may suggest future claims could differ from historical amounts.

Note 36. Current liabilities - provisions (continued)

Movements in provisions

AASB137(84)

Movements in each class of provision during the current financial year, other than employee benefits, are set out below:

	Lease make good \$'000	Legal claims \$'000	Warranties \$'000
Consolidated - 2025			
Carrying amount at the start of the year	-	-	2,837
Additional provisions recognised	-	60	503
Amounts transferred from non-current	230	-	-
Amounts used	-	-	(91)
Unused amounts reversed	-	-	(45)
	<u>230</u>	<u>60</u>	<u>3,204</u>

Note 37. Current liabilities - other

	Consolidated	
	2025	2024
	\$'000	\$'000
Accrued expenses	1,143	927
Refund liabilities	<u>987</u>	<u>942</u>
	<u>2,130</u>	<u>1,869</u>

AASB15(B21)(b)

Note 38. Current liabilities - liabilities directly associated with assets classified as held for sale

AASB5(38)

	Consolidated	
	2025	2024
	\$'000	\$'000
Bank loans	<u>4,000</u>	<u>-</u>

The liabilities identified above represents the bank loan secured over the vacant land currently for sale. Refer to note 19 for further information.

Note 39. Non-current liabilities - borrowings

	Consolidated	
	2025	2024
	\$'000	\$'000
Bank loans	<u>19,000</u>	<u>19,000</u>

AASB7(8)(g)

Refer to note 49 for further information on financial instruments.

Total secured liabilities

The total secured liabilities (current and non-current) are as follows:

	Consolidated	
	2025	2024
	\$'000	\$'000
Bank overdraft	-	1,273
Bank loans	<u>27,500</u>	<u>21,000</u>
	<u>27,500</u>	<u>22,273</u>

Note 39. Non-current liabilities - borrowings (continued)

Assets pledged as security

The bank overdraft and loans are secured by first mortgages over the consolidated entity's land and buildings.

AASB7(14)(a)

Financing arrangements

Unrestricted access was available at the reporting date to the following lines of credit:

AASB7(39)(c)

	Consolidated	
	2025	2024
	\$'000	\$'000
Total facilities		
Bank overdraft	5,000	5,000
Bank loans	40,000	25,000
	<u>45,000</u>	<u>30,000</u>
Used at the reporting date		
Bank overdraft	-	1,273
Bank loans	27,500	21,000
	<u>27,500</u>	<u>22,273</u>
Unused at the reporting date		
Bank overdraft	5,000	3,727
Bank loans	12,500	4,000
	<u>17,500</u>	<u>7,727</u>

AASB107(50)(a)

Loan covenants

The bank loans are subject to certain financial covenants and these are assessed at the end of each quarter. The loans will be repayable immediately if the covenants are breached. The consolidated entity is not aware of any facts or circumstances that indicate that it may have difficulty complying with the covenants within 12 months after the reporting period.

AASB18(B106)(a),(b)

Note 40. Non-current liabilities - lease liabilities

	Consolidated	
	2025	2024
	\$'000	\$'000
Lease liability	301,714	322,745

Refer to note 49 for further information on financial instruments.

Note 41. Non-current liabilities - deferred tax

	Consolidated	
	2025	2024
	\$'000	\$'000
<i>Deferred tax liability comprises temporary differences attributable to:</i>		
Amounts recognised in profit or loss:		
Financial assets at fair value through profit or loss	15	-
Prepayments	302	228
Development costs	481	577
Customer contracts	306	-
Net fair value gain on investment properties	270	450
Contract assets	184	89
Customer acquisition costs	594	537
Customer fulfilment costs	347	317
Right of return assets	201	185
	<u>2,700</u>	<u>2,383</u>
Amounts recognised in equity:		
Revaluation of property, plant and equipment	1,950	1,950
Revaluation of financial assets at fair value through other comprehensive income	15	-
	<u>1,965</u>	<u>1,950</u>
Deferred tax liability	<u>4,665</u>	<u>4,333</u>
		AASB112(81)(g)(i)
<i>Movements:</i>		
Opening balance	4,333	2,143
Charged/(credited) to profit or loss (note 11)	(58)	1,590
Charged to equity (note 11)	15	600
Additions through business combinations (note 58)	375	-

	\$'000	\$'000
Lease make good	<u>1,475</u>	<u>1,070</u>

Lease make good

AASB137(85)

The provision represents the present value of the estimated costs to make good the premises leased by the consolidated entity at the end of the respective lease terms.

Movements in provisions

AASB137(84)

Movements in each class of provision during the current financial year, other than employee benefits, are set out below:

	Lease make good \$'000
Consolidated - 2025	
Carrying amount at the start of the year	1,070
Additional provisions recognised	550
Amounts transferred to current	(230)
Unwinding of discount	85
Carrying amount at the end of the year	<u>1,475</u>

Note 44. Equity - issued capital

	2025 Shares	Consolidated 2024 Shares	2025 \$'000	2024 \$'000	
Ordinary shares - fully paid	146,910,000	146,800,000	182,953	182,678	AASB18(130)(a)(iii)

Movements in ordinary share capital

AASB18(130)(a)(iv)

Details	Date	Shares	Issue price	\$'000
Balance	1 January 2024	111,800,000		104,922
Issue of shares	[date]	35,000,000	\$2.25	78,750
Share issue transaction costs, net of tax	[date]			(994)
Balance	31 December 2024	146,800,000		182,678
Issue of shares on the exercise of options	[date]	10,000	\$2.50	25
Issue of shares to key management personnel	[date]	100,000	\$2.50	250
Balance	31 December 2025	146,910,000		182,953

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital. AASB18(130)(a)(i),(iii),(v)

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote. AASB18(130)(a)(v)

Share buy-back

ASX4.10.18

There is no current on-market share buy-back.

Capital risk management

The consolidated entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital. AASB18(126)

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents. AASB18(127)(a)

In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. AASB18(127)(a)

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment. The consolidated entity is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies. AASB18(127)(a)

The consolidated entity is subject to certain financing arrangements covenants and meeting these is given priority in all capital risk management decisions. There have been no events of default on the financing arrangements during the financial year. AASB18(127)(d)

The capital risk management policy remains unchanged from the 31 December 2024 Annual Report. AASB18(127)(c)

Note 45. Equity - reserves

	Consolidated 2025 \$'000	2024 \$'000	
Revaluation surplus reserve	4,095	4,095	
Financial assets at fair value through other comprehensive income reserve	35	-	
Foreign currency reserve	(769)	(512)	AASB121(52)(b)
Hedging reserve - cash flow hedges	(85)	(75)	
	3,276	3,508	

Revaluation surplus reserve

AASB18(130)(b)

The reserve is used to recognise increments and decrements in the fair value of land and buildings, excluding investment properties.

Note 45. Equity - reserves (continued)

Financial assets at fair value through other comprehensive income reserve

AASB18(130)(b)

The reserve is used to recognise increments and decrements in the fair value of financial assets at fair value through other comprehensive income.

Foreign currency reserve

AASB18(130)(b)

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to Australian dollars. It is also used to recognise gains and losses on hedges of the net investments in foreign operations.

Hedging reserve - cash flow hedges

AASB18(130)(b)

The reserve is used to recognise the effective portion of the gain or loss of cash flow hedge instruments that is determined to be an effective hedge.

Movements in reserves

Movements in each class of reserve during the current and previous financial year are set out below:

	Revaluation surplus \$'000	Financial assets at fair value through OCI \$'000	Foreign currency \$'000	Hedging \$'000	Total \$'000

Balance at 31 December 2025	4,095	35	(769)	(85)	3,276	

Note 46. Equity - retained profits

	Consolidated	
	2025	2024
	\$'000	\$'000
Retained profits at the beginning of the financial year	12,386	14,482
Profit	27,763	15,520
Dividends paid (note 48)	(29,383)	(17,616)
Retained profits at the end of the financial year	10,766	12,386

Note 47. Equity - non-controlling interest

	Consolidated	
	2025	2024
	\$'000	\$'000
Issued capital	16,000	16,000
Reserves	455	455
Retained profits	908	766
	17,363	17,221

The non-controlling interest has a 10% (2024: 10%) equity holding in Pinnacle Manufacturing Pty Limited.

Note 48. Equity - dividends

Dividends

Dividends paid during the financial year were as follows:

	Consolidated	
	2025	2024
	\$'000	\$'000
Final dividend for the year ended 31 December 2024 (2024: 31 December 2023) of 15 cents (2024: 8 cents) per ordinary share	22,037	11,744
Interim dividend for the year ended 31 December 2025 (2024: 31 December 2024) of 5 cents (2024: 4 cents) per ordinary share	7,346	5,872
	<u>29,383</u>	<u>17,616</u>

On [date] the directors declared a final dividend for the year ended 31 December 2025 of 17 cents per ordinary share to be paid on [date], a total estimated distribution of \$24,975,000 based on the number of ordinary shares on issue as at [date].

Franking credits

	Consolidated	
	2025	2024
	\$'000	\$'000
Franking credits available for subsequent financial years based on a tax rate of 30%	11,520	10,621

The above amounts represent the balance of the franking account as at the end of the financial year, adjusted for:

- franking credits that will arise from the payment of the amount of the provision for income tax at the reporting date
- franking debits that will arise from the payment of dividends recognised as a liability at the reporting date
- franking credits that will arise from the receipt of dividends recognised as receivables at the reporting date

Note 49. Financial instruments

Financial risk management objectives

The consolidated entity's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk and interest rate risk), credit risk and liquidity risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. The consolidated entity uses derivative financial instruments such as forward foreign exchange contracts to hedge certain risk exposures. Derivatives are exclusively used for hedging purposes, i.e. not as trading or other speculative instruments. The consolidated entity uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate, foreign exchange and other price risks, ageing analysis for credit risk and beta analysis in respect of investment portfolios to determine market risk.

Risk management is carried out by senior finance executives ('finance') under policies approved by the Board of Directors ('the Board'). These policies include identification and analysis of the risk exposure of the consolidated entity and appropriate procedures, controls and risk limits. Finance identifies, evaluates and hedges financial risks within the consolidated entity's operating units. Finance reports to the Board on a monthly basis.

Market risk

Foreign currency risk

The consolidated entity undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations.

Foreign exchange risk arises from future commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the entity's functional currency. The risk is measured using sensitivity analysis and cash flow forecasting.

In order to protect against exchange rate movements, the consolidated entity has entered into forward foreign exchange contracts. These contracts are hedging highly probable forecasted cash flows for the ensuing financial year. Management has a risk management policy to hedge between 30% and 80% of anticipated foreign currency transactions for the subsequent 4 months.

Note 49. Financial instruments (continued)

The maturity, settlement amounts and the average contractual exchange rates of the consolidated entity's outstanding forward foreign exchange contracts at the reporting date were as follows: ^{AASB7(23B)}

	Sell Australian dollars		Average exchange rates	
	2025	2024	2025	2024
	\$'000	\$'000		
Buy US dollars				
Maturity:				
0 - 3 months	121	89	0.9123	0.8132
3 - 6 months	34	23	0.9057	0.8294
Buy Euros				
Maturity:				
0 - 3 months	274	207	0.6342	0.5861
3 - 6 months	86	49	0.6355	0.6082
Buy New Zealand dollars				
Maturity:				
0 - 3 months	182	163	1.2345	1.2643
3 - 6 months	107	71	1.2407	1.2847

The carrying amount of the consolidated entity's foreign currency denominated financial assets and financial liabilities at the reporting date were as follows: ^{AASB7(34)(a)}

	Assets		Liabilities	
	2025	2024	2025	2024
	\$'000	\$'000	\$'000	\$'000
Consolidated				
US dollars	35	18	64	69
Euros	7	21	82	74
New Zealand dollars	45	32	61	52
	<u>87</u>	<u>71</u>	<u>207</u>	<u>195</u>

The consolidated entity had net liabilities denominated in foreign currencies of \$120,000 (assets of \$87,000 less liabilities of \$207,000) as at 31 December 2025 (2024: \$124,000 (assets of \$71,000 less liabilities of \$195,000)). Based on this exposure, had the Australian dollar weakened by 10%/strengthened by 5% (2024: weakened by 5%/strengthened by 5%) against these foreign currencies with all other variables held constant, the consolidated entity's profit before tax for the year would have been \$12,000 lower/\$6,000 higher (2024: \$6,000 lower/\$6,000 higher) and equity would have been \$8,000 lower/\$4,000 higher (2024: \$4,000 lower/\$4,000 higher). The percentage change is the expected overall volatility of the significant currencies, which is based on management's assessment of reasonable possible fluctuations taking into consideration movements over the last 6 months each year and the spot rate at each reporting date. The actual foreign exchange loss for the year ended 31 December 2025 was \$13,000 (2024: loss of \$6,000). ^{AASB7(40)}

Price risk

The consolidated entity is not exposed to any significant price risk.

^{AASB7(33)(a),(34)(a)}

Interest rate risk

The consolidated entity's main interest rate risk arises from long-term borrowings. Borrowings obtained at variable rates expose the consolidated entity to interest rate risk. Borrowings obtained at fixed rates expose the consolidated entity to fair value risk. The policy is to maintain approximately 60% of current borrowings at fixed rates using interest rate swaps to achieve this when necessary. ^{AASB7(33)(a),(b)}

The consolidated entity's bank loans outstanding, totalling \$27,500,000 (2024: \$21,000,000), are principal and interest payment loans. Monthly cash outlays of approximately \$180,000 (2024: \$140,000) per month are required to service the interest payments. An official increase/decrease in interest rates of 100 (2024: 100) basis points would have an adverse/favourable effect on profit before tax of \$275,000 (2024: \$210,000) per annum. The percentage change is based on the expected volatility of interest rates using market data and analysts forecasts. In addition, minimum principal repayments of \$8,500,000 (2024: \$2,000,000) are due during the year ending 31 December 2026 (2024: 31 December 2025). ^{AASB7(40)}

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has a strict code of credit, including obtaining agency credit information, confirming references and setting appropriate credit limits. The consolidated entity obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. The consolidated entity does not hold any collateral. ^{AASB7(35K)}

Note 49. Financial instruments (continued)

The consolidated entity has adopted a lifetime expected loss allowance in estimating expected credit losses to trade receivables through the use of a provisions matrix using fixed rates of credit loss provisioning. These provisions are considered representative across all customers of the consolidated entity based on recent sales experience, historical collection rates and forward-looking information that is available. As disclosed in note 14, due to the current environment, the calculation of expected credit losses has been revised as at 31 December 2025 and rates have increased in each category up to 6 months overdue. ^{AASB7(35G)}

The consolidated entity has a credit risk exposure with a major Australian retailer, which as at 31 December 2025 owed the consolidated entity \$10,680,000 (76% of trade receivables) (2024: \$9,510,000 (74% of trade receivables)). This balance was within its terms of trade and no impairment was made as at 31 December 2025. There are no guarantees against this receivable but management closely monitors the receivable balance on a monthly basis and is in regular contact with this customer to mitigate risk. ^{AASB7(35B)(c)}

Generally, trade receivables are written off when there is no reasonable expectation of recovery. Indicators of this include the failure of a debtor to engage in a repayment plan, no active enforcement activity and a failure to make contractual payments for a period greater than 1 year. ^{AASB7(35F)(e)}

Liquidity risk

Vigilant liquidity risk management requires the consolidated entity to maintain sufficient liquid assets (mainly cash and cash equivalents) and available borrowing facilities to be able to pay debts as and when they become due and payable. ^{AASB7(33)(a)}

The consolidated entity manages liquidity risk by maintaining adequate cash reserves and available borrowing facilities by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities. ^{AASB7(33)(b),(39)(c)}

Financing arrangements

^{AASB107(50)(a)}

Unused borrowing facilities at the reporting date:

	Consolidated	
	2025	2024
	\$'000	\$'000
Bank overdraft	5,000	3,727
Bank loans	12,500	4,000
	<u>17,500</u>	<u>7,727</u>

The bank overdraft facilities may be drawn at any time and may be terminated by the bank without notice. Subject to the continuance of satisfactory credit ratings, the bank loan facilities may be drawn at any time and have an average maturity of 3 years (2024: 4 years).

Remaining contractual maturities

The following tables detail the consolidated entity's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position.

Consolidated - 2025	Weighted average interest rate %	1 year or less \$'000	Between 1 and 2 years \$'000	Between 2 and 5 years \$'000	Over 5 years \$'000	Remaining contractual maturities \$'000

Balance at 31 December 2025	(165)	99	(19)	(85)

Note 50. Fair value measurement

Fair value hierarchy

The following tables detail the consolidated entity's assets and liabilities, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: Unobservable inputs for the asset or liability

Consolidated - 2025	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000	
Assets					AASB13(93)(a),(b)
Ordinary shares at fair value through profit or loss	360	-	-	360	
Ordinary shares at fair value through other comprehensive income	-	-	170	170	
Investment properties	-	-	46,900	46,900	
Land and buildings	-	-	58,500	58,500	
Total assets	360	-	105,570	105,930	
Liabilities					
Forward foreign exchange contracts	-	122	-	122	
Total liabilities	-	122	-	122	

Consolidated - 2024	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000	
Assets					AASB13(93)(a),(b)
Investment properties	-	-	47,500	47,500	
Land and buildings	-	-	58,500	58,500	
Total assets	-	-	106,000	106,000	
Liabilities					
Forward foreign exchange contracts	-	107	-	107	
Total liabilities	-	107	-	107	

Assets and liabilities held for sale are measured at fair value on a non-recurring basis.

There were no transfers between levels during the financial year.

The carrying amounts of trade and other receivables and trade and other payables are assumed to approximate their fair values due to their short-term nature.

The fair value of financial liabilities is estimated by discounting the remaining contractual maturities at the current market interest rate that is available for similar financial liabilities.

Valuation techniques for fair value measurements categorised within level 2 and level 3

Unquoted investments have been valued using a discounted cash flow model.

The basis of the valuation of investment properties is fair value. The investment properties are revalued annually based on independent assessments by a member of the Australian Property Institute having recent experience in the location and category of investment property being valued. Valuations are based on current prices in an active market for similar properties of the same location and condition, subject to similar leases and takes into consideration occupancy rates and returns on investment.

The basis of the valuation of land and buildings is fair value. The land and buildings were last revalued on 31 December 2024 based on independent assessments by a member of the Australian Property Institute having recent experience in the location and category of land and buildings being valued. The directors do not believe that there has been a material movement in fair value since the revaluation date. Valuations are based on current prices for similar properties in the same location and condition.

Derivative financial instruments have been valued using quoted market rates. This valuation technique maximises the use of observable market data where it is available and relies as little as possible on entity specific estimates.

Note 50. Fair value measurement (continued)

Level 3 assets and liabilities

Movements in level 3 assets and liabilities during the current and previous financial year are set out below:

AASB13(93)(e)

Consolidated	Ordinary shares at fair value through OCI \$'000	Investment properties \$'000	Land and buildings \$'000	Total \$'000	
Balance at 1 January 2024	-	46,000	56,500	102,500	
Gains recognised in profit or loss	-	1,500	-	1,500	AASB13(93)(e)(i)
Gains recognised in other comprehensive income	-	-	2,000	2,000	AASB13(93)(e)(ii)
Balance at 31 December 2024	-	47,500	58,500	106,000	
Losses recognised in profit or loss	-	(600)	-	(600)	AASB13(93)(e)(i)
Gains recognised in other comprehensive income	50	-	-	50	AASB13(93)(e)(ii)
Additions	200	-	-	200	AASB13(93)(e)(iii)
Disposals	(80)	-	-	(80)	AASB13(93)(e)(iii)
Balance at 31 December 2025	170	46,900	58,500	105,570	

The level 3 assets and liabilities unobservable inputs and sensitivity are as follows:

AASB13(93)(h)

Description	Unobservable inputs	Range (weighted average)	Sensitivity
Ordinary shares at fair value through other comprehensive income	Growth rate	2.5% to 3.5% (3.0%)	0.25% change would increase/decrease fair value by \$5,000
	Discount rate	8.0% to 11.0% (9.5%)	1.00% change would increase/decrease fair value by \$14,000
Investment properties	Rental yield	7.5% to 9.0% (8.5%)	0.75% change would increase/decrease fair value by \$352,000
	Rental growth	1.25% to 2.0% (1.75%)	0.25% change would increase/decrease fair value by \$117,000
	Long-term vacancy rate	5.0% to 9.0% (7.5%)	0.75% change would increase/decrease fair value by \$276,000
	Discount rate	4.0% to 6.0% (5.25%)	0.5% change would increase/decrease fair value by \$57,000
Land and buildings	Rental yield	6.0% to 8.0% (7.5%)	0.75% change would increase/decrease fair value by \$440,000
	Discount rate	5.0% to 7.0% (6.25%)	0.5% change would increase/decrease fair value by \$61,000

Note 51. Key management personnel disclosures

Compensation

The aggregate compensation made to directors and other members of key management personnel of the consolidated entity is set out below:

	Consolidated		
	2025	2024	
	\$	\$	
Short-term employee benefits	1,617,781	1,498,400	AASB124(17)(a)
Post-employment benefits	106,870	100,745	AASB124(17)(b)
Long-term benefits	10,059	25,192	AASB124(17)(c)
Share-based payments	252,960	1,431	AASB124(17)(e)
	<u>1,987,670</u>	<u>1,625,768</u>	

Note 52. Remuneration of auditors

AASB1054(10)

During the financial year the following fees were paid or payable for services provided by Accounting Firm 123, the auditor of the company, its network firms and unrelated firms:

	Consolidated		
	2025	2024	
	\$	\$	
<i>Audit services - Accounting Firm 123</i>			AASB1054(10)(a)
Audit or review of the financial statements	243,000	230,000	
<i>Other services - Accounting Firm 123</i>			AASB1054(10)(b)
Preparation of the tax return	12,950	12,400	AASB1054(11)
Transfer pricing review	5,500	5,000	AASB1054(11)
	18,450	17,400	
	<u>261,450</u>	<u>247,400</u>	
<i>Audit services - network firms</i>			AASB1054(10)(a)
Audit or review of the financial statements	-	15,000	
<i>Other services - network firms</i>			AASB1054(10)(b)
Due diligence	-	22,450	AASB1054(11)
Transfer pricing review	18,000	64,500	AASB1054(11)
	18,000	86,950	
	<u>18,000</u>	<u>101,950</u>	
<i>Audit services - unrelated firms</i>			AASB1054(10)(a)
Audit or review of the financial statements	26,500	23,000	

Note 53. Contingent assets

AASB137(89)

Pinnacle Manufacturing Pty Limited, a subsidiary, will be paid a success premium of up to \$3,000,000 by Compdesign Partnership, in which it holds a 35% interest, if the rights to a computer manufacturing process are sold to a Korean based company. The likelihood of this proceeding is highly probable. No asset has been recognised within these financial statements.

Pinnacle Manufacturing Pty Limited, a subsidiary, has an outstanding insurance claim with respect to inventory that was damaged in the Queensland floods that occurred during the financial year. An assessment is currently being undertaken by the insurer as to whether it was the cause of a flood or rising waters, which will affect the payout. Because the insurance proceeds are not virtually certain, no asset has been recognised within these financial statements. The inventory of approximately \$400,000 has been written off during the current financial year.

Note 54. Contingent liabilities

AASB137(86)

During the financial year there was a work related accident involving a member of staff. Although the investigation is still in progress, the directors are of the opinion, based on independent legal advice, that the consolidated entity will not be found to be at fault and any compensation will be covered by the consolidated entity's insurance policy. Accordingly, no provision has been provided within these financial statements.

The consolidated entity has given bank guarantees as at 31 December 2025 of \$3,105,000 (2024: \$2,844,000) to various landlords.

Note 55. Commitments

	Consolidated		
	2025	2024	
	\$'000	\$'000	
<i>Capital commitments</i>			
Committed at the reporting date but not recognised as liabilities, payable:			
Investment properties	170	170	AASB140(75)(h)
Property, plant and equipment	1,165	1,145	AASB116(74)(c)
Intangible assets	160	-	AASB138(122)(e)

Note 56. Related party transactions

Parent entity

Pinnacle Listed Practical Limited is the parent entity.

AASB18(116)(c)
AASB124(13)

Subsidiaries

Interests in subsidiaries are set out in note 59.

Associates

Interests in associates are set out in note 60.

Key management personnel

Disclosures relating to key management personnel are set out in note 51 and the remuneration report included in the directors' report.

Transactions with related parties

The following transactions occurred with related parties:

Guarantees entered into by the parent entity in relation to the debts of its subsidiaries

CR2M.3.01(1)(h)

The parent entity and some of its subsidiaries are party to a deed of cross guarantee under which each company guarantees the debts of the others. No deficiencies of assets exist in any of these subsidiaries.

Contingent liabilities

CR2M.3.01(1)(i)

The parent entity had no contingent liabilities as at 31 December 2025 and 31 December 2024.

Capital commitments - Property, plant and equipment

CR2M.3.01(1)(j)

The parent entity had no capital commitments for property, plant and equipment as at 31 December 2025 and 31 December 2024.

Material accounting policy information

CR2M.3.01(2)

The accounting policies of the parent entity are consistent with those of the consolidated entity, as disclosed in note 1, except for the following:

- Investments in subsidiaries are accounted for at cost, less any impairment, in the parent entity.
- Investments in associates are accounted for at cost, less any impairment, in the parent entity.
- Dividends received from subsidiaries are recognised as other income by the parent entity and its receipt may be an indicator of an impairment of the investment.

Note 58. Business combinations

On [date] Pinnacle Logistics Pty Limited, a subsidiary of Pinnacle Listed Practical Limited, acquired 100% of the ordinary shares of Pinnacle CompCarrier Pty Limited (formerly known as CompCarrier Pty Limited) for the total consideration transferred of \$8,230,000. This is a freight business and operates in the computer distribution division of the consolidated entity. It was acquired to better utilise the existing computer distribution division administrative function. The goodwill of \$408,000 represents the expected synergies from merging this business with the computer distribution division and eliminating third party freight costs. The acquired business contributed revenues of \$5,428,000 and profit after tax of \$670,000 to the consolidated entity for the period from [date] to 31 December 2025. If the acquisition occurred on 1 January 2025, the full year contributions would have been revenues of \$5,901,000 and profit after tax of \$729,000. The values identified in relation to the acquisition of CompCarrier are final as at 31 December 2025.

Details of the acquisition are as follows:

AASB3(B64)(f),
AASB107(40)(d)

	Fair value \$'000	
Cash and cash equivalents	3	AASB107(40)(c)
Trade receivables	822	AASB3(B64)(h)
Prepayments	106	
Plant and equipment	6,060	
Customer contracts	1,250	
Deferred tax asset	449	
Trade payables	(364)	
Deferred tax liability	(375)	
Employee benefits	(129)	
Net assets acquired	7,822	
Goodwill	408	
Acquisition-date fair value of the total consideration transferred	8,230	AASB3(B64)(f)
Representing:		
Cash paid or payable to vendor	8,230	AASB107(40)(b)
Acquisition costs expensed to profit or loss	182	AASB3(53)
Cash used to acquire business, net of cash acquired:		AASB107(40)(b)
Acquisition-date fair value of the total consideration transferred	8,230	AASB107(40)(a)
Less: cash and cash equivalents	(3)	
Less: payments made in prior periods	(155)	
Net cash used	8,072	

The fair value of trade receivables is \$822,000. The gross contractual amount for trade receivables due is \$874,000, of which \$52,000 is not expected to be collected.

AASB3(B64)(h)

Note 59. Interests in subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following wholly-owned subsidiaries in accordance with the accounting policy described in note 1:

AASB124(13)

Name	Principal place of business / Country of incorporation	Ownership interest	
		2025 %	2024 %
Pinnacle Retailing Pty Limited	Australia	100.00%	100.00%
Pinnacle Logistics Pty Limited	Australia	100.00%	100.00%
Pinnacle CompCarrier Pty Limited	Australia	100.00%	-
Pinnacle Retailing International Limited	New Zealand	100.00%	100.00%

Note 59. Interests in subsidiaries (continued)

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiary with non-controlling interests in accordance with the accounting policy described in note 1: AASB12(12)(a)-(c)

Name	Principal place of business / Country of incorporation	Principal activities	Parent Ownership interest		Non-controlling interest Ownership interest	
			2025 %	2024 %	2025 %	2024 %
Pinnacle Manufacturing Pty Limited *	Australia	Computer manufacturing	90.00%	90.00%	10.00%	10.00%

* the non-controlling interests hold 25% of the voting rights of Pinnacle Manufacturing Pty Limited

AASB12(12)(d)

Summarised financial information

Summarised financial information of the subsidiary with non-controlling interests that are material to the consolidated entity are set out below:

		Pinnacle Manufacturing Pty Limited	
		2025 \$'000	2024 \$'000
<i>Summarised statement of financial position</i>			
Current assets		48,800	50,443
Non-current assets		163,318	162,342

		2025 \$'000	2024 \$'000	
Committed at the reporting date but not recognised as liabilities, payable:				
Share of capital commitments		175	74	
Significant restrictions		AASB12(22)(a)		
Compdesign Partnership must reduce its bank loans to under \$50,000,000 and achieve pre-determined profit targets before any cash dividends can be distributed.				

Note 61. Deed of cross guarantee

The following entities are party to a deed of cross guarantee under which each company guarantees the debts of the others:

Pinnacle Listed Practical Limited
Pinnacle Retailing Pty Limited
Pinnacle Logistics Pty Limited
Pinnacle CompCarrier Pty Limited

By entering into the deed, the wholly-owned entities have been relieved from the requirement to prepare financial statements and directors' report under Corporations Instrument 2016/785 issued by the Australian Securities and Investments Commission.

The above companies represent a 'Closed Group' for the purposes of the Corporations Instrument, and as there are no other parties to the deed of cross guarantee that are controlled by Pinnacle Listed Practical Limited, they also represent the 'Extended Closed Group'.

Set out below is a consolidated statement of profit or loss and other comprehensive income and statement of financial position of the 'Closed Group'.

	2025	2024

Range of payment due dates for comparable trade payables that are not part of supplier finance arrangements	14 - 45 days after invoice date	14 - 45 days after invoice date	AASB107(44H)(b)(iii)

Terms and conditions

AASB107(44H)(a)

The consolidated entity has established a supplier finance arrangement that is offered to some of the consolidated entity's key suppliers and participation in the arrangement is at the discretion of the supplier. Suppliers that participate in the supplier finance arrangement will receive early payment from an external finance provider for approved invoices where goods have been received. If suppliers choose to receive early payment, they pay a fee to the finance provider and the consolidated entity is not party to this arrangement. Payments to suppliers ahead of the invoice due date are processed by the finance provider and, in all cases, the consolidated entity settles the original invoice by paying the finance provider in line with the original invoice due date. Payment terms with suppliers have not been renegotiated in conjunction with the arrangement. The consolidated entity provides no security to the finance provider.

Note 67. Earnings per share

	Consolidated		
	2025	2024

Note 68. Share-based payments

On [date], 100,000 shares were issued to key management personnel at an issue price of \$2.50 per share and a total transactional value of \$250,000. AASB2(45)(a)

A share option plan has been established by the consolidated entity and approved by shareholders at a general meeting, whereby the consolidated entity may, at the discretion of the Nomination and Remuneration Committee, grant options over ordinary shares in the company to certain key management personnel of the consolidated entity. The options are issued for nil consideration and are granted in accordance with performance guidelines established by the Nomination and Remuneration Committee. AASB2(45)(a)

Note 68. Share-based payments (continued)

Set out below are summaries of options granted under the plan:

AASB2(45)(b),(d)

2025							
Grant date	Expiry date	Exercise price	Balance at the start of the year	Granted	Exercised	Expired/ forfeited/ other	Balance at the end of the year
01/04/2023	31/03/2025	\$2.50	10,000	-	(10,000)	-	-
01/04/2025	31/03/2029	\$3.00	-	17,500	-	-	17,500
			10,000	17,500	(10,000)	-	17,500
Weighted average exercise price			\$2.50	\$3.00	\$2.50	\$0.00	\$3.00
2024							
Grant date	Expiry date	Exercise price	Balance at the start of the year	Granted	Exercised	Expired/ forfeited/ other	Balance at the end of the year
01/04/2023	31/03/2025	\$2.50	10,000	-	-	-	10,000
			10,000	-	-	-	10,000
Weighted average exercise price			\$2.50	\$0.00	\$0.00	\$0.00	\$2.50

AASB2(45)(b)

AASB2(45)(b)

Set out below are the options exercisable at the end of the financial year:

AASB2(45)(b)(vii)

Grant date	Expiry date	2025 Number	2024 Number
01/04/2023	31/03/2025	-	10,000
		-	10,000

The weighted average share price during the financial year was \$2.66 (2024: \$2.34).

AASB2(45)(c)

The weighted average remaining contractual life of options outstanding at the end of the financial year was 3.25 years (2024: 0.25 years).

AASB2(45)(d)

For the options granted during the current financial year, the valuation model inputs used to determine the fair value at the grant date, are as follows:

AASB2(47)(a)(i)

Grant date	Expiry date	Share price at grant date	Exercise price	Expected volatility	Dividend yield	Risk-free interest rate	Fair value at grant date
01/04/2025	31/03/2029	\$2.61	\$3.00	18.00%	4.75%	5.93%	\$0.489

Entity name	Entity type	Place formed / Country of incorporation	Ownership interest %	Tax residency
Pinnacle Manufacturing Pty Limited	Body corporate	Australia	90.00%	Australia *

Pinnacle Retailing International Limited	Body corporate	New Zealand	100.00%	New Zealand

CA295(3A)(a)

* Pinnacle Listed Practical Limited (the 'head entity') and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime.

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements; CA295(4)(d)(i), CA296(1),(2)
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements; CA295(4)(ca)
- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 31 December 2025 and of its performance for the financial year ended on that date; CA295(4)(d)(ii), CA297(a),(b)
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable; CA295(4)(c)
- at the date of this declaration, there are reasonable grounds to believe that the members of the Extended Closed Group will be able to meet any obligations or liabilities to which they are, or may become, subject by virtue of the deed of cross guarantee described in note 61 to the financial statements; and ASIC CI2016/785
- the information disclosed in the attached consolidated entity disclosure statement is true and correct. CA295(4)(da)

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

CA295(4)(e)

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

CA295(5)(a)

On behalf of the directors

Daniel Example
Director
